2021-2022 YLS Common Application Preparation Reminders

- If you have not done so already, please meet with the designated fellowship administrator for the fellowship(s) to which you are applying to. You will find their names and contact information within each fellowship description.

- If you are interested in having an administrator review your draft proposal, you should provide them with a copy as soon as possible and be mindful of any posted deadlines for reviewing submissions. If you are applying to the YPIF and/or YLJ fellowship please email Norma D’Apolito a copy of your proposal by **February 8, 2021**.

- If you are submitting a Heyman fellowship application and would like your proposal reviewed, please email Norma D’Apolito a copy of your proposal by **March 18, 2021**.

- Please email the individuals you have identified to write your letters of recommendation as soon as possible. We encourage you to request your letters early in order to give recommenders ample time to write their letters. Your recommenders will be able to submit their letters through the online common application portal beginning January 5, 2021.

- Between December through mid-January, you should be finalizing your fellowship application, including your personal statement, proposal, and additional materials. Be sure to touch base with your host organization about their sponsorship letter well enough in advance of the application deadline.
