This worksheet provides a step by step instruction guide for the Student portion of the FAAST application including detailed explanations of the application questions, Frequently Asked Questions and a checklist of helpful data to have available in the process.

Note that this worksheet is based on all the potential student/applicant questions in the FAAST system. However, not all of the questions listed on the worksheet will appear for you to actually complete. FAAST uses your initial responses to questions to then determine what follow up questions are required and, as such, minimizes the number of questions you must actually complete. The goal of FAAST is to have you complete a nominal amount of questions specific to your individual financial situation while at the same time providing Yale Law School with sufficient information to perform an equitable financial need analysis.

Many of the questions will require a mandatory response before proceeding in the application. In the case of mandatory questions that require a numeric response, enter 0 (or $0) if the question is not applicable to your circumstance.

We encourage applicants to review this worksheet prior to beginning the FAAST application and also to keep the worksheet accessible while actually completing the FAAST application. Applicants are always encouraged to reach out to YLS Financial Aid through our designated FAAST email (FAAST.law@yale.edu) with any questions on the application.

Q - How long does it take to fill out the application?  
FAAST is meant to personalize the aid application experience, required questions are generated on the basis of your own responses to prior questions. As such, the experience of completing FAAST will never be the same for any two applicants. FAAST is designed to be as simple, and efficient as possible for applicants while still yielding YLS with necessary data to making an equitable aid award.

Q - Can I begin an application now and return later?  
Yes, FAAST automatically saves any data that you input so that you can begin an application, log out and return to where you left off. The status bar tracks both where you are in the application process and what remains to be completed.

Student Annual Income (2019 Tax Year)

If you are a non U.S. Citizen use your equivalent national tax return and convert currency to U.S. dollars (www.google.com/finance/convert). For all questions - if the student is presently married or intends to be married as of 9/1/20 include joint income information. Q - I have not filed my income taxes yet. What should I do? If you can, try to complete your federal income tax form prior to beginning FAAST. When that is not possible, you may "estimate" your tax return data by using a combination of your prior year’s tax returns and any current year documents (W-2s, 1099’s, interest/dividend statements, etc.) that you have as a resource. Try to be as accurate in your estimate as possible so that a valid aid award can be made initially which will not have to be revised or changed later in the process. Note that when presented with the question asking you to select the "Source of Following U.S. Tax Figures", and you have not yet filed your taxes, choose an estimated version of the form you anticipate that you will complete.

Q - I am an international student and received income from non-U.S. sources. How should I complete the application? As an international student who did not file a non-U.S. tax form, you will be asked similar questions about your income and assets without reference to the IRS forms. You should convert any foreign currency into U.S. dollars to complete the application. If your tax year is not equivalent to the U.S. calendar tax year, then provide financial information for the most recently completed tax year.

Similar Special Circumstance sections exist for both the Parent application section as well.

If neither parent provided greater support during the last 12 months, it is the parent who most recently provided the greatest financial support. The other parent (and step-parent if applicable) is the “Non-Custodial Parent.” The student will receive two separate PIN numbers identified as Custodial and Non-Custodial and should share the respective PINs with the appropriate parent.

Q - Will my parent(s) see my financial information?

If either the student or the parent(s) does not wish to share sensitive financial information with each other, they can indicate as such on a specific FAQST question addressing this issue of confidentiality. **2020-2021 Student Information Worksheet**

**FAAST: Frequently Asked Questions**

Q: Can the student complete the Parent portion of FAAST on behalf of my parents?  
We recognize that in some cases parents may not have ready access to technology or may have logistical or communication challenges with the present online system. If a parent is unable to do so, the student may complete the application on their behalf with their permission. If you do so, it is critical that the student log in using the Parent PIN (to link the Student and Parent sections of the application). Parent information, particularly financial data, must be as accurate as possible. Incoming students are required to submit tax return documentation later in the financial aid process that will be verified against the FAAST data. If there are variances in that review, aid awards will be revised.

Q: Who do I contact if I am having technical difficulties with the system? 
If you experience any type of technical challenges with the FAAST system, bring them to our immediate attention by emailing FAAST.law@yale.edu. In your email please be as detailed as possible as to what the problem is that you are experiencing. If the Financial Aid staff that monitors that mailbox are unable to resolve your issue, we will refer the matter to our YLS IT department for resolution.
