

# Fall 2023 Prosecution Externship Information Session

Criminal justice. White collar crime. Murder trials. Civil enforcement action.

The Prosecution Externship is a clinic that places YLS students at the New Haven State's Attorney's Office and the District of Connecticut U.S. Attorney's Office during the academic year.

Students assist the offices in drafting memos, motions, warrants, and other documents; observe trials; and perform arraignments and other court proceedings (if desired). Interested students can also work on the civil side at the U.S. Attorney's Office. Students have substantial discretion over the matters they choose to work on.

Please join us for the information session for next semester's clinic and get your questions answered!
