This worksheet provides a step-by-step instruction guide for the Student portion of the FAAST application including detailed explanations of the application questions, Frequently Asked Questions and a checklist of helpful data to have available in the process.

Note that this worksheet is based on all the potential student/applicant questions in the FAAST system. However, not all of the questions listed on the worksheet will appear for you to actually complete. FAAST uses your initial responses to questions to then determine what follow up questions are required and, as such, minimizes the number of questions you must actually complete. The goal of FAAST is to have you complete a nominal amount of questions specific to your individual financial situation while at the same time providing Yale Law School with sufficient information to perform an equitable financial need analysis.

Many of the questions will require a mandatory response before proceeding in the application. In the case of mandatory questions that require a numeric response, enter 0 (or $0) if the question is not applicable to your circumstance. Current YLS students will have the opportunity to have data from a previous year application imported into this year’s application.

We encourage applicants to review this worksheet prior to beginning the FAAST application and also to keep the worksheet accessible while actually completing the FAAST application. Applicants are always encouraged to reach out to YLS Financial Aid through our designated FAAST email (FAAST.law@yale.edu) with any questions on the application.

Current students should submit FAAST for financial aid renewal by April 15th annually.

Q. What type of information will I need to complete FAAST? This worksheet includes “Helpful Data to Complete FAAST” (page 9) - a checklist of key income, expense and asset documentation to have available while working on the application.

Q. How long does it take to fill out the application? FAAST is meant to personalize the aid application experience, required questions are generated on the basis of your own responses to prior questions. As such, the experience of completing FAAST will never be the same for any two applicants. FAAST is designed to be as simple, and efficient as possible for applicants while still yielding YLS with necessary data to making an equitable aid award.

Q. Can I begin an application now and return later? Yes. FAAST automatically saves any data that you input so that you can begin an application, log out and return to where you left off. The status bar tracks both where you are in the application process and what remains to be completed.

Q. - How am I supposed to complete my application by the financial aid office deadline if I do not have my W2 yet or have not filed taxes?
You can complete FAAST by using your best estimate of your financial information based on your paystubs and by using your prior year’s tax return.

Q. - I have no idea what my income will be next year. What should I do?
You will need to provide a “best estimate” of your income for the coming year and enter that amount for the need analysis to be calculated.

Q. - A question is unclear or needs further clarification - where can I go for help in understanding what information is needed?
The first source for assistance is this Student Worksheet - which provides a step-by-step instructional guide and a more detailed explanation and clarification of each question. A separate Parent Worksheet also similarly assists parents in the process. If you remain unsure how to respond, we encourage you to submit your question to our FAAST dedicated email at FAAST.law@yale.edu. Financial Aid staff monitors this email and will respond back with assistance.
FAAST question and answer session:

Q: Does FAAST have the ability for me to add more information/further detail on my circumstances?  
The "Special Circumstances" section of the Student Application allows you to provide any additional information that you wish Yale Law to be aware of in their consideration and assessment of your application based on financial need. Similar Special Circumstance sections exist for both the Parent Application section as well.

Q: Do I have to pay a fee to submit the application?  
No, because this is YLS’s own financial aid application and not a common application shared by schools there is no fee to submit.

Q: How do I submit my application?  
If all of the sections for your current application are complete, click the "Submit Application" button to submit your application. You will receive a confirmation email that your application has been received by the YLS Financial Aid Office.

Q: What if I have to make a change or update my application after submission?  
Once submitted the application is "locked" and updates can no longer be accepted. If there is a major change to your FAAST data after the application has been locked, email the YLS Financial Aid staff at FAAST.law@yale.edu.

Q: Will there be any other taxable or non-taxable income sources other than employment/work income for the academic year 2023-2024?  
Please identify those sources and quantify the amount of income you will receive from those sources for the academic year 2023-2024. In the text box provided describe the source of income (i.e. rental income) and then quantify the amount earned for the entire summer period (i.e. $2,500).

Q: Will students be expected to file tax returns for the 2023 tax year?  
No, because this is YLS application based on financial need, not a common tax return filing.

Q: Am I allowed to add more information/further detail on my circumstances?  
Yes because this is YLS application based on financial need. Additional information/further detail may be added later in this section if the student is presently married or intends to be married as of 9/1/23. If the balance between cash/savings today vs. what you anticipate having as of 9/1/23 differs, use the text box to briefly explain the variance (i.e. pay off credit card debt, buying a house, etc.). If no difference in balances enter “n/a” in text box.

Q: What is the anticipated balance as of September 1, 2023?  
Estimate the total amount of money in cash, savings and checking accounts that you will have as of 9/1/23. Do not count in this balance any savings from wages/earnings from summer 2023 employment previously reported on this application. In your balance also account for any moving/transition expenses related to beginning enrollment.

Q: Explain any significant variances between the cash, savings and checking balances as of today vs. the anticipated 9/1/2023 balance.  
If the balance between cash/savings today vs. what you anticipate having as of 9/1/23 differs, use the text box to briefly explain the variance (i.e. pay off credit card debt, buying a house, etc.). If no difference in balances enter “n/a” in text box.

Q: Value of stocks, bonds, and investments  
Enter the current value of investments such as certificates of deposit, money market funds, mutual funds, stocks, bonds, other securities, installment and land sale contracts (including mortgages held), commodities, precious metals, etc. Do not include any amount of these investments held in retirement plans, such as pension funds, annuities, IRAs, Keoghs, etc.

Q: 529 College Savings Plan  
If you intend to use a 529 College Savings Plan for which you are the beneficiary to support any portion of your 2023-2024 academic year enrollment, enter the amount of funds from the plan you intend to use.
Q - After I submit my portion of FAAST, how does my parent complete their portion?
Immediately after submitting your application, you will receive an email for your parent that includes a URL link that will allow your parent to log into the FAAST system and complete their portion of the application. If you have indicated that your parents are divorced or legally separated, you will receive a separate email for each. This URL connects their portion of the application with your portion. As such, it is critical that the student share this log in information with your parents as soon as you receive it. In addition, parents will establish their own username and password at the time of first access to the system.

Q - I have no contact with my parent – am I still required to have them complete their portion of FAAST?
Students who can document that they have had no contact with a parent over an extended period of time or have an estrangement from their parent may have the parent application form waived. However, to do so, students must use the Special Circumstances section of FAAST to provide a detailed explanation of their parental situation, and upload documentation from a third party source that verifies the situation. The financial aid staff will review, and make a professional judgment on an individual case by case basis if a waiver of parental data is allowable.

Q - My parents are divorced or not currently married, how do they know which parent to identify as Custodial and Non-Custodial Parent?
The main supporting parent (and step-parent if applicable) defined as the parent whom the student lived with for the majority of the time in the last 12 months is the Custodial Parent. If the student didn’t live with either parent more than the other in the last 12 months, it is the parent that provided the most financial support during that time. If neither parent provided greater support during the last 12 months, it is the parent who most recently provided the greatest financial support. The other parent (and step-parent if applicable) is the “Non-Custodial Parent”. The student will receive two separate emails with URLs identified as Custodial and Non-Custodial and should share the respective emails with the appropriate parent.

Q - Will my parent(s) see my financial information?
If either the student or the parent(s) does not wish to share sensitive financial information with each other, they can indicate as such on a specific FAQST question addressing this issue of confidentiality. In addition, the student, Parent and Non-Custodial Parent all establish their own username and passwords for secure system access.

Note - this section is optional. In the large text box provided share any circumstances not captured elsewhere on this application that you wish Yale Law to be aware of in their consideration/assessment of this application based on financial need. All information is kept confidential. Note: data collected in this section is used exclusively to assign students to Yale Law School’s endowed scholarships under which donors have established funds with specific recipient criteria. Many fund criteria are related to student demographics, educational interests or career goals. For eligible need-based recipients, endowed scholarship funds support existing institutional scholarship awarded. Completion of this section does not impact your overall need-based scholarship eligibility.

Q: Can the student complete the Parent portion of FAAST on behalf of my parents?
We recognize that in some cases parents may not have ready access to technology or may have logistical or communication challenges with the present online system. If a parent is unable to do so, the student may complete the application on their behalf with their permission. If you do so, it is critical that the student log in using the Parent URL (to link the Student and Parent sections of the application). If there are variances in that review, aid awards will be revised.
