The Yale Club of New Haven annually awards scholarships to full time matriculated graduate and professional school students in the spring of their first and/or subsequent years. The by-laws of the club stipulate that the scholarships be awarded to residents of greater New Haven County area. This area includes the shoreline towns from Milford to Clinton, circumscribed by Shelton, Ansonia, Derby, Wallingford, Cheshire, Middletown, Haddam, Killingworth and the towns contained therein. Residency for these scholarships is determined primarily by where the applicant attended secondary school. A list of the qualifying secondary schools is enclosed for your information. (N.B. The location of the undergraduate institution attended or the current residence is not considered in determining the awards.)

The scholarships are formally awarded in May; each one in the amount of $3,000 per year. The award is paid in half installments to the student’s Bursar account to reduce the student’s expenses in the Fall and Spring semesters. It is expected that the scholarship recipient, upon annual reapplication, will continue to receive the scholarship until completion of the degree program, providing they remain full time students in good standing.

We leave to your judgment how best to publicize these scholarships to students who may qualify for the residency requirement. There are a number of professional schools which have not had recent student awardees. We need your help in letting students know that scholarship money is available, if they qualify. While financial need is a primary consideration, these scholarship funds are additional monies that go straight to the Bursar, and do not simply displace other financial aid.

The deadline for filing an application is March 30, 2018.
